In the presence of three rabbis, we have heard and evaluated information relating to **Avrohom Mondrowitz** along with actions relating to how he defiled, ruined and damaged children, both physically and emotionally. Anyone who would hear about his despicable and corrupt actions should be alarmed and tremble at the fact that such an evil man can be found amongst our people. Who can believe that such a thing can happen in our community, etc.

This individual has ruined the lives of hundreds of Jewish children and adolescents here in America. As known to many rabbis and Roshei Yeshivah and as verified by witnesses, these accusations are difficult to describe and disseminate in public. **Let it be known that his status (din) is that of a Rodeph.** He should not receive any defense, but should rather be removed from any Jewish community. In addition, he should not be in contact with children and adolescents in any way, and parents should be vigilant about this in order to prevent their children from falling into his awful trap. Let this action remove evil from our camp. As we create gates for the sake of modesty, let us be rewarded with increased holiness in our community. May our holy community be properly cleansed in anticipation of the holy Messiah.
